

Coastal

Outdoor Elevator

The Coastal is able to hold up to 800lbs and its large cabinet is standard to accommodate a wheelchair and another user. This fully outfitted modern outdoor elevator is designed with an incredibly strong, yet see-through polycarbonate cab and gate, aluminum framed cab and gate, and galvanized steel rails to prevent it from rusting while being outdoors.

The Coastal Outdoor Elevator is an extremely stylish and capable solution to your residential lifting needs.

- Can hold up to 800lbs
- Weather and rust resistant material
- Full cab allows for through deck applications
- No shaft or enclosure needed
